# RECONNECTING WATERWAYS

## A WORKSHOP ON REMOVING DAMS & RIGHT-SIZING CULVERTS

Thursday, December 5th  
8:30 am to 4:00 pm  
DoubleTree by Hilton  
South Burlington, VT

This **FREE** workshop is designed for project managers, engineers, and excavation contractors working on, or interested in, dam removal and culvert replacement projects. The agenda offers an overarching exploration of barrier removal restoration goals, project phases & sequencing, partner roles, tools, critical engagement points, and the intersection between engineering, (de)construction, and stream geomorphic compatibility.

**Project Managers**

**Engineers**

**Excavation Contractors**

All interested workshop attendees will receive a Certificate of Participation to count toward continuing education credits
